Airbus A330-A340 - Hayward and Green

The program to build a successor to the A300 split into two branches: the A330 and the A340. By the 1980s, Airbus had developed a fly-by-wire system for the A320 family of jets that it wanted to incorporate into the larger planes. Airbus thought that, by doing this, it would give them the upper hand over Boeing when it came to cockpit ...
