Cisco Unity Express versions 3.1 and later provide several options to notify subscribers of new messages in their voice mailboxes. You can configure the system in order to send the message notifications to the devices such as Cell phone, Home Phone, Work phone, Numeric pager, Text pager, and E-mail inbox.

### Enable E-mail Message Notifications for a ... - Cisco

Cisco Unity Express - Voicemail Operator Number. Dumb question, just picked up a CUE AA task, never really used it in anger - so apologies for the basic question.... CUE is set up with AA, all seems well, except the voicemail operator number is all configured (and I can dial this number from my phone ok), but when you go through the AA greeting, "press 0 to dial the operator", I get "the phone number you are trying to reach is currently out of service".

### Cisco Unity Express - Voicemail Operato... - Cisco Community

Our organization is using a 2811 router with Call Manger Express (CME 7.1) and Unity Express (2.3). The time stamp on the messages left in our voice mail is off by 2 hours. The system time on the router is correct and set to the correct time zone. NTP seems to be functioning.
