While John McPhee was working on his previous book, *Rising from the Plains*, he happened to walk by the engineering building at the University of Wyoming, where words etched in limestone said: "Strive on--the control of Nature is won, not given."

The Control of Nature by John McPhee - Goodreads

Master how-it-works writer John McPhee has instructed his readers in the arcana of how oranges are commercially graded, how mountains form, how canoes are built and oceans crossed. In *The Control of Nature* he turns his attention once more to geology and the human struggle against nature. In one sketch, he explores the U.S. Army Corps of Engineers' unrealized plan to divert the flow of the Mississippi River into a tributary, the Atchafalaya, for flood control; in another, he looks at the ...

Atchafalaya

The Control of Nature is a 1989 book by John McPhee that chronicles three attempts to control natural processes. It is divided into three long essays, "Atchafalaya", "Cooling the Lava", and "Los Angeles Against the Mountains". The Army Corps of Engineers prevents the Mississippi River from changing course, but has had less success in controlling flooding along the river. The residents of Heimaey, Iceland saved their harbor by spraying water on the volcanic lava flow threatening to close it off.
