Diabetes is a national health priority. The Australian National Diabetes Strategy 2016–2020 was released by the Australian Government in November 2015. 1 The number of people with type 2 diabetes is growing, most likely the result of rising overweight and obesity rates, lifestyle and dietary changes, and an ageing population. Within 20 years, the number of people in Australia with type 2 ...

## **RACGP - Introduction**

General Changes. In alignment with the American Diabetes Association's (ADA's) position that diabetes does not define people, the word "diabetic" will no longer be used when referring to individuals with diabetes in the "Standards of Medical Care in Diabetes.". The ADA will continue to use the term "diabetic" as an adjective for complications related to diabetes (e.g.,
