key runs (describe-key). C-h l Display a description of the last 100 characters you typed (view-lossage). C-h m Display documentation of the current major mode (describe-mode). C-h n

GNU Emacs Manual

Your init file contains personal EmacsLisp code that you want to execute when you start Emacs. See the Emacs manual ('C-h r'), node Init File. For GnuEmacs, your init file is ~/.emacs, ~/.emacs.el, or ~/.emacs.d/init.el. You can choose to use any of these names. '~/' stands for your home directory.

EmacsWiki: Init File

This is the basic reference to GNU Emacs, written by the guy who designed Emacs in the first place, so it doesn't get much more reliable than this. If you have Emacs, strictly speaking you don't need this, as Emacs comes with an online version of the

manual which is probably more up to date than this book.

Amazon.com: GNU Emacs Manual, For Version 21, 15th Edition ...

The manual has lots of useful information about the best ways to use all the different features of the EMACS tool. It is well writen and is an easy read. However all of the information present is also on-line for free or is only a C-h ? command away.

Amazon.com: Gnu Emacs Manual: For Version 22 ...

What does this text mean, in node Simple Lambda Expression Example of the Emacs Lisp manual: As these examples show, you can use a form with a lambda expression as its car to make local variables and give them values. In the old days of Lisp, this technique was the only way to bind and initialize local variables.

help - emacs lisp manual - Emacs Stack Exchange

Emacs obeys the command by visiting the file: creating a buffer, copying the contents of the file into the buffer, and then displaying the buffer for you to edit. If you alter the text, you can save the new text in the file by typing C-x C-s (save-buffer).

GNU Emacs Manual - Basic Editing Commands

shell-mode (M-x shell, M-p; see also the Running a shell within emacs tips) tcl-mode intro (see also the Editing Tcl source code tips) info and the online emacs manual (C-h i) crash recovery (M-x recover-file, M-x recover-session) More advanced commands [These won't be covered at the bootcamp presentation.]

emacs tutorial - rgrjr

The primary documentation of GNU Emacs is in the GNU Emacs Manual, which you can read using Info, either from Emacs or as a standalone program. Please look there for complete and up-to-date documentation.

emacs(1): GNU project Emacs - Linux man page
To exit and kill Emacs, type C-x C-c (save-buffers-kill-emacs). A two-character key is used for this to make it harder to type by accident. A two-character key is used for this to make it harder to type by accident.
