Re: 172 ci ford industrial engine in reply to mike romanetto, 06-08-2010 06:03:09 I suspect you have a 192 cubic in industrial engine. But the only difference between a 172 and a 192 is the bore and possibly casting (D3JL = 192, D2JL = 172 per a rebuilders parts list) both are 1970's vintage.

Find the engine, casting, or part number. Ford places the part number in various locations, depending on the engine. Common locations include the rear of the engine, near the starter mount and bellhousing, on the front of the block's right side (when looking at it from the front), on the left side of in-line-cylinder engines, or by the oil filter mount.

They were the 134cid and the 172cid. The 134 engine is basically the same as the 53-56? jubilee and 600 tractor engine. The 172 is the same as the 800 series farm tractor. There were variations such as lp gas manifolds. You should be able to locate parts easily for either engine. You can get a parts book from any Ford industrial engine dealer.
