POD X3 Live Manuals - Line 6

The POD X3 is an amp sim/multi-effects pedal from Line 6. It uses all digital signal processing. Getting started is as easy as plugging in your guitar and headphones, then stepping on the foot-switches to jump between presets. The software application for the POD X3 has always given me problems.

The Pod X3 Live is the on-the-floor version of Line 6's popular X3 kidney-shaped model and is clearly targeted, as the name suggests, towards the gigging musician. Certainly, for all practical purposes, the X3 Live has been designed with live performances in mind.

Line 6 POD X3 Live - Multi Effects Pedal Reviews

I love my Line 6 POD X3 Live Guitar Multi Effects Pedal. With this modern marvel, you should be able to achieve just about any tone you can imagine (the Line 6 website explains its capabilities in detail). With a little experimentation, you should be able to easily find your own unique tone.

Like most products from Line 6, this one technically does what it claims but doesn't quite perform the way you would like it to. The X3 floor unit can just barely be squeezed into this bag. Picture trying to get a size S t-shirt on Rosie O'Donnell. It's kind of like that. Now a super tight fit would be OK if the POD could simply live in the bag.
