LOOK Buildings has Authorized Installers that can put your building up for you, or you can Do-It-Yourself!! This system is self-braced as you build. Most building designs rely on the metal or sheeting for shear strength and they tend to cross their fingers if the wind blows hard during construction. That won't happen with a LOOK Building!

Look at that Building (2011 edition) | Open Library

This is a book about building structures. It explains the parts of a building as well as the function and purpose of them. The book also includes terms and definitions of different building details and interesting facts. I would read this to my students to help them have an understanding of architecture.
