Love At Goon Park Harry

In Love at Goon Park, Pulitzer Prize winner Deborah Blum charts this profound cultural shift by tracing the story of Harry Harlow—the man who studied neglect and its life-altering consequences on primates in his lab. The biography of both a man and an idea, Love at Goon Park ultimately invites us to examine ourselves and the way we love.

Love at GOON Park is particularly satisfying because the content is fascinating and the writing is so good! It's science that reads like a novel. The book is about Harry Harlow and his monkey experiments on mother love. The name GOON Park comes from the address of Harry's lab at 600 N Park, which, I suppose looked a little like "GOON."
