Configure a Hydro-Line N5 series cylinder. The configurator allows you to design a cylinder, create model codes, download CAD drawings and request pricing for Hydro-Line N5 series industrial cylinder products. Product models are available in more than 150 CAD and graphic formats.

Vickers NZ series tie-rod NFPA cylinder configurator | Eaton

Welded cylinders have the end caps welded to the tube while Tie-rod cylinders are held together by four threaded tie bolts. Welded cylinders often take up less space, can handle higher operating pressures and withstand harsh environments. Tie-rod cylinders are available with faster delivery times, easily maintained but do take up a larger footprint.
