Document | Definition of Document by Merriam-Webster

A document is a written, drawn, presented, or memorialized representation of thought, often the manifestation of non-fictional, as well as fictional, content. The word originates from the Latin Documentum, which denotes a "teaching" or "lesson": the verb doceō denotes "to teach". In the past, the word was usually used to denote written proof useful as evidence of a truth or fact.

HTML DOM Document Objects - W3Schools

Knowing how to document business processes is an essential element for the implementation of BPM in a company.. Without this, it will be tough to understand and formalize how the business value chain works entirely, and later, from that understanding, map the AS-IS process (as it is today) and how it will be in the future, after improvements .. Another important point of process documentation ...
