How to Build a Wood Windmill Tower | Rock Ridge Windmills

The prop isn't that large so I made a windmill tower that is just over 6 1/2 feet tall and all from material that can be found at the big box store. Since it is an outdoor decoration I made mine from cedar since it's a naturally rot resistant wood but a slightly cheaper alternative would be to make it from treated or untreated pine.

Free Plans on How To Build a Wooden Windmill Tower

We suggest using pressure treated wood or a wood with natural insect resistance like cedar or redwood in the construction. This tower will give you an assembled height of 19'. This kit includes the functional compressor with our patent pending BalCam II technology and 5 year warranty, Outdoor Water Solutions Windmill head, 100' of 1/2" poly tubing, and an airstone with backflow valve.

Outdoor Water Solutions Wooden Garden Windmill □ 10ft.H, Model# BYW0136 This decorative wooden garden windmill is made of high-quality cedar-stained pine with old-time red-tipped galvanized steel blades. U.S.A. Oversize shipping charge applies.

Free Plans on How To Build a Wooden Windmill Tower

The wooden windmill tower legs should not contact the ground. The legs can sit on concrete that is tapered to prevent standing water or we can provide hot dipped galvanized metal supports with feet. On historical projects, we hide the metal supports with stone work or sister wood over the legs and add wooden plugs to hide all the hardware.

Custom Wood Windmill Towers | Rock Ridge Windmills

Take an old ceiling fan, add mosaics and then put it all together on a wooden post to create this DIY garden windmill. This one is super easy - although a bit time consuming considering the DIY mosaic project that you are creating. It would be lovely anywhere in your garden and if you don't have a wooden post that you can mount it to, you could just put this one right there on the side of your house or on the deck railing.
